ABOUT OLM

OLM, LLC (OLM.net) is a privately held company dedicated to helping individuals and businesses create a powerful online presence easily and economically. Founded in 1996, OLM.net has grown considerably by providing a comprehensive array of web services backed by superior service and the latest technology. Currently, more than 350,000 domains from over 150 countries are securely hosted in our network.

As a total web solutions provider, our product offerings include virtual, e-commerce, and dedicated web hosting as well as domain registration and web design. Through partnerships with key industry leaders, vital development and marketing tools are also available to enhance your website and to help your business grow.
